Nossal High School

Year 9 to Year 12

Nossal High School is a specialty school that provides a unique curriculum catered to 'adult' forms of educational practice. Nossal aspires to develop in their students the capacity to take responsibility for themselves, their learning and their environment in a unique and adult way. Where possible, students are provided with the environment, trust and opportunity to behave in an adult way from the moment they start, while recognising that some students require more scaffolding than others to develop these behaviours.

Nossal students have more rights and are likely to find there are fewer rules than they are accustomed to. They also find that there will be higher levels of responsibility expected of them, as with any adult in the workplace. This expectation affects many aspects of school life. It is in part a recognition of the students' ability to function at a high level, and in part a recognition of the need to prepare them fully for learning at the tertiary level and beyond.
