

Podiatry

Dr Navid Wali (DPM)

After attaining his Bachelor of Science from the University of Western Australia, majoring in physiology and pharmacology, Navid went on to study Doctor of Podiatric medicine also at the same institute. He has a keen interest in all aspects of foot health, with focus areas being diabetic screening and education, biomechanical implication on foot function and ingrown toenail procedures. In his spare time, he enjoys spending quality time with family, loves the outdoors and enjoys futsal.

Dr Hassan Karim (DPM)

Hassan has completed both his Bachelor of Biomedical Science and Doctor of Podiatric Medicine at UWA attaining many awards along the way. He has a strong interest in all aspects of Podiatry with a strong focus on biomechanics, paediatric assessments and heel pain management. Away from work Hassan is an avid soccer player enjoying many stints in WA's top flight State League.

As of April 2017, they can provide some of the following services at the Harrisdale Medical Centre:
